Give a detailed description of the project that the students will be working. ECHO students can work on individual projects or part of a larger project within your organization.

B.5 Requested Work Term

CCNL offers ECHO placements for students in Newfoundland and Labrador aged 15-30, which includes high school and returning post-secondary students (All ECHO participants must be full-time and returning students). All ECHO students are paid \$11.50 per hour for 35 hours per week. ECHO placements can be requested for 8, 12, and 15 weeks. Community partners can request a maximum of **TWO** ECHO placements per year.

In section B.5, please indicate the number of positions you are requesting and for which term length(s) you are applying (8, 12, or 15 weeks). If applying for two ECHO placements, Community Partners can choose any combination of term lengths (e.g. One ECHO student placement for 8 weeks and a second ECHO student placement for 15 weeks). Please note: the number and length of positions that CCNL can offer to community partners will ultimately depend on (1) the success of your application to CCNL and (2) the success of CCNL's application to Canada Summer Jobs.

Community partner projects that are approved for summer 2016 are responsible for contributing 25% of the total wages per student. Community partners will be invoiced for the prescribed amount for each successful application.

B.7 Vehicle Use

CCNL does not provide access to or funding for vehicle use for ECHO placement work. If a vehicle is required by the student to perform his/her work-related duties, the community partner must reimburse the student directly for vehicle use. A request can be made by CCNL during the recruitment and hiring process to place vehicle requirements on the job posting.
